ULTIMATE RELAXATION

Appointment Etiquette

Therapists will arrive 5 minutes prior to appointment time at your room in order to prepare the treatment. It is advisable to shower before all body treatments. For body and face treatments it is easier to meet your needs if you tell us what you would prefer. We recommend consulting with our therapist before you begin your treatment, to discuss your opinions and what might best benefit your skins needs. Your therapist will also make you aware of any extra charges associated with additional services.

Massage attire is whatever makes you feel comfortable. You will be covered at all times. It's your time – your therapist is a professional. If you feel like chatting, go ahead – if you don't, just relax and enjoy.
